## JUNE 2015

## Volume 1, Issue 1

### On the Calendar

- **Summer School begins Monday, June 22nd and runs through Friday, August 7th.**
- **Farmer's Market on the Plaza runs from June 9 through November**
- **Cambridge Open Market starts on July 10th on runs on Fridays through August 21st: 11:30am-5pm**

## Newsletter Introduction

As we welcome the summer school students to the Science Center, we would like to provide everyone with an update on current activities within the building.

## Summer Renovations

Taking advantage of the reduced occupancy of the building during the summer months, we have started on a few renovation projects. Please note that we expect this work to proceed through the summer with minimal impact on classes. All loud work is to be performed before 8:30am. In the event you feel that activity from these projects are posing a disruption please contact building operations immediately and we will see that the activities cease.

## Security Desk

A project currently underway is the new home for our security team, Securitas.

The new space, located just across the hall north of their current location, will be a great addition to the Science Center, as the space will double as a main office for the North Yard Security Team. This project is scheduled for completion by August 14, 2015.

**New Security Desk**

## SCIENCE CENTER

We're On the Web?

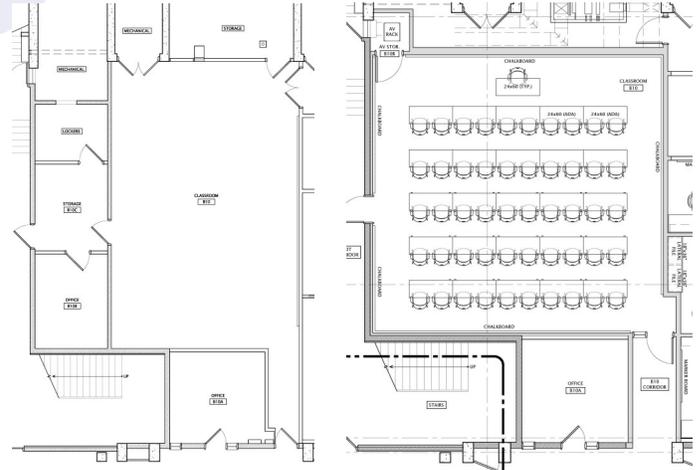

<http://www.fas.harvard.edu/~scdiroff/>

COMING SOON:

Our new web site will be ready for the start of the fall term.

# Classrooms B-10 and 216 Renovations

State of the art technologies for audio and visual equipment, updated seating, room finishes and lighting are included in the renovation of Classrooms B10 and 216. Classroom B10 will also be reconfigured with additional space and seating for 50 students. The current schedule for both projects is having the work completed by August 26, 2015, just in time for the fall session.

## Building Operations Relocation

*“A new records room will allow us to better manage building mechanical and structural records.”*

The new home for the Science Center Building Operations Team will be located in B11, the space previously occupied by the HUIT Computer Store. We are looking forward to this move. Our new space will accommodate a new records room that will allow us to better manage building mechanical and structural records. We feel that this space will also provide more exposure to building occupants. Anticipated move in date is the last week of August.
